

Kerf Linear

SPEC SHEET

Designer | Zev Bianchi
www.bcompact.com

Introducing our latest innovation in sustainable lighting solutions: the Kerf Linear lighting range. Crafted with precision and care, these elegant fixtures seamlessly blend eco-conscious design with unparalleled functionality, offering a radiant illumination experience unlike any other.

Handcrafted from premium bamboo, each fixture in the Kerf Bamboo Lighting series is a testament to the beauty of nature and the ingenuity of modern design. The bamboo's natural grain and texture are accentuated, adding a touch of warmth and sophistication to any space, whether it's a contemporary office, a chic boutique, or a cozy living room.

2 METER
